

Allied Waste of Corvallis

Recycle Depot

110 NE Walnut Blvd, enter from Belvue St.
off Walnut or Circle

Hours: 7a.m. to 7p.m., everyday except
Christmas, New Years & Thanksgiving

At Allied Waste, we are able to expand the list of items that can be recycled at our depot for several reasons. Some materials can be recycled if they are source separated or collected separately. Others might be damaged if they were picked up at the curb and still others are simply too big or bulky for our trucks to handle. We also know that many of our customers who live outside the curbside recycling program want to recycle. For these reasons, we offer a full service recycle center on our property. We are able to accept:

Commingled Recycling (same material as in the tan carts at the curb [\(link recycling PDF here\)](#))

Corrugated Cardboard

Container Glass

Scrap Metal (no appliances)

Plastic Bags & Film

Household Batteries

Motor Oil

Cooking Oil (now accepting cooking oil for Sequential to be made into bio fuels!)

Electronic Waste (including cell phones, ink cartridges, game video & music systems)

Compact Fluorescent Light Bulbs (no incandescent bulbs)
